

LTE/5G High Gain Outdoor Antenna

Highlights

- Rugged weatherproof outdoor housing.
- 4 Antennas built in one for multi frequency coverage.
- 2 Antenna ports enhanced LTE MIMO reception.
- Compatible with RG-6/RG-11 Coaxial cable connections.

Overview

The Pristine Outdoor Antenna gives you a simple outdoor connectivity solution for your modem, avoiding signal disruptions in that are present inside of your location. Simply connect this antenna directly to your Pristine Router and instantly improve your signal quality once mounted properly. The Pristine Outdoor Antenna is also compact, obscure, and simple to set up.

- Pristine Outdoor Antenna helps with the enhancement of signal; however speeds are based on network conditions of the service provider, this device does not guarantee any speed rate or quality of service offered from the common carrier.

LTE/5G High Gain Outdoor Antenna

Key Features

Enhanced Connectivity with 4G LTE/5G Frequencies

Enhance reception and signal quality to improve speeds and reliability with 4G LTE/5G service. Helps increase upload speeds with the use of MIMO.

Better Signal Reception

Two connectors are available to connect the LTE antenna for better signal reception.

Use Cases

We all depend on a fast, always-on broadband connection, and planning to ensure everyone stays connected is essential. The Infinite v5 Outdoor Antenna is a reliable solution for enhanced signal connectivity, allowing you to continue running without any disruption when signal may not be available inside of your location.

Great for:

- Remote business continuity
- Last-mile connection
- Vacation cabins / rural homes
- Interim solution to fixed line service
- Kiosk - wire-free connection
- Temporary offices such as construction sites Mobile stores such as food trucks

LTE/5G High Gain Outdoor Antenna

Package Contents

- Cellular High Gain Antenna
- Pole Mounting Bracket with U Clamp
- 2 x SMA RG-6 Coaxial Adapters

****Mounting pole not included.**

****Coaxial Cable not included.**

Specifications

- Dimensions: 8" (W) x 3" (D) x 9" (H)
- Weight: 2 Lbs. Shipped

Band Support

- Bands 2/4/5/12/13/14/17/25/26/30/41/66/71/85
- Carrier Aggregation Compatible
- mmWave 5G capable

Interface

- 2 F-Type Antenna Connectors (Back of unit)

Housing

- Weatherproof, Wind resistant, Stainless steel.
- Ground Strike, Waterproofed Antenna
- Black Random

Power Adapter

- Not Required

Key Features

- High Gain flat panel antenna with 18dbm reception possible.
- Easy to install, able to use with existing RG-6 Cable
- 4 Antennas in one to Enhance signal
- Two SMA connectors included to connect LTE modems for better signal reception
- Portable, light, and compact design for you to take anywhere.

Cellular High Gain Antenna

System Requirements

- Compatible Cellular Modem device.

** May work with other Modem types.

Support

- 90-day complimentary technical support*

Warranty

- [Modem Warranty | Pristine \(pristineinternet.com\)](https://pristineinternet.com)
